## *What is AAFL?*

The *Aesthetic Association of Florida* (AAFL) was founded in March 2008 with the desire to provide all aesthetic professionals a local network where they can be educated in the latest procedures and practices through skin care products, treatments and use of equipment.

With the local support and encouragement we believe our membership will be equipped in the most up-to-date knowledge of the esthetics industry. Members are able to meet and develop professional friendships with local aestheticians, doctors, nurse practitioners, physician assistants, registered nurses, full specialists, body wrappers and massage therapists, along with business owners, managers, school instructors, students and cosmetologists who are directly associated with a business in the aesthetic industry. This network will enhance and broaden your scope of professionals in our area.

Our association meets monthly to listen and learn from professionals in our field. This gives us exposure to products, equipment and concepts that we can each bring to our profession. Having a deeper understanding of procedures and practices will ensure that we are the most qualified in our industry! Please join us!

## *Legislative Support*

We want our voice to be heard at our State Capitol! With current legislation on the floor during session, we want to make sure our interests will be protected. To ensure we will be heard, we have a State of Florida lobbyist who is looking out for us. We are now able to stay abreast with the legislative process in Tallahassee.

## *Website*

To stay connected with the local aesthetic industry in Brevard County, visit to our website at: [www.MyAAFL.org](http://www.MyAAFL.org). There you will be able to learn about local training sessions, seminars and employment opportunities. You will be able to see when and where our scheduled meetings take place and how you can get involved in with our association. We encourage you to surf our website and add input on what will best serve you.

## *Mission Statement*

*Providing education and support to the local aesthetic professionals while upholding ethical values with our client's best interest in mind.*
